INDEX TO VOLUME 49

Adler, Bela, Body size of Israeli newborn infants in relation to regional origin of their mothers 41–50

Age effects of seasonal variation in mortality 415–28

Altitude, effects on growth 109–24

Altitude, effects on neonate body size 611–28

Announcements 242–3

Anthropometrics and heritability 573–80

Anthropometrics and physical exams of Canadian Indians 581–91

Anthropometrics, body density and body composition 203–13

Armelagos, George J., The role of diet, disease, and physiology in the origin of porotic hyperostosis 471–83

Ashcroft, M. T., Heights and weights of Jamaican children with homozygous sickle cell disease 429–36

Azevêdo, Eliane S., Racial origin and historical aspects of family names in Bahia, Brazil 287–99

Baker, Paul T., The effects of high altitude on adolescent growth in southern Peruvian Amerindians 109–24; The effects of high altitude on body size and composition of the newborn infant in southern Peru 611–28

Baker, Thelma S., The effects of high altitude on adolescent growth in southern Peruvian Amerindians 109–24

Bakker, H. K., Biological variability and lean body mass estimates 187–202

Beall, Cynthia M., The effects of high altitude on adolescent growth in southern Peruvian Amerindians 109–24

Bharadwaj, H., Relationship of body density to body measurements in young Punjabi women: applicability of body composition prediction equations developed for women of European descent 203–13

Bielicki, Tadeusz, Sex differences in the magnitude of statural gains of offspring over parents 265–77

Birkbeck, J. A., Anthropometric measurements and physical examinations of Indian populations from British Columbia and the Yukon Territories, Canada 581–91

Birth seasonality 125–37

Birthweight and mortality 321–33
Black, D. P., Nutritional status of Brazilian Kayapo Indians 139–53
Black, F. L., Nutritional status of Brazilian Kayapo Indians 139–53
Body composition and serum creatine phosphokinase 375–80
Body composition, body density and anthropometrics 203–13
Body density, anthropometrics and body composition 203–13
Body dimensions and fat distribution 495–514
Body dimensions during aging 541–58
Body mass estimates 187–202
Body shape in Turner's syndrome 215–23
Body size and sicklemia 429–36
Body size of neonates 41–50
Body size of neonates, effects of altitude on, 611–28
Book notices 89, 239–41, 667–8
Book reviews
Balakrishnan, V., L. D. Sanghvi and R. L. Kirk, Genetic diversity among Australian Aborigines 517–19
Bernhard, W. and A. Kandler, Bevölkerungsbiologie (Biology of human populations) 85–7
Boyce, A. J., Chromosome variations in human evolution 665–6
Canosa, Cipriano A., Nutrition, growth and development 83–4
Clifford, H. T. and W. Stephenson, An introduction to numerical classification 527–9
D'Souza, Stanislaus, Closed birth intervals: a data analytic study 77–9
Ebling, John, Racial variation in man 529–31
Fieve, Ronald R., David Rosenthal and Henry Brill, Genetic research in psychiatry 515–17
Friedlaender, Jonathan Scott, Patterns of human variation. The demography, genetics, and phenetics of Bougainville Islanders 73–5
Giles, Eugene and Jonathan S. Friedlaender, The measures of man: methodologies in biological anthropology 663–5
Grandjean, E., Ergonomics of the home 536–8
Hiernaux, Jean, The people of Africa 229–31
Kondo, S., M. Kawai, A. Ehara and S. Kawamura, Proceedings from the Symposia of the Fifth Congress of the International Primatological Society, Nagoya, Japan 225
LeBlanc, J., Man in the cold 233–5
Lengyl, I. A., Paleoserology: blood typing with the fluorescent antibody method 75–7
Lewis, Gilbert, Knowledge of illness in a Sepik Society: a study of the Gnau, New Guinea 654–6
Lewontin, R. C., The genetic basis of evolutionary change 79–81
Loehlin, John C., Gardner Lindzey and J. N. Spuhler, Race differences in intelligence 235–8
McNamara, Jr., J. A., Determinants of mandibular growth and form 660–3
Molnar, Stephen, Races, types, and ethnic groups: the problem of human variation 531–4
Moody, Paul Amos, Genetics of man 519–21
Nei, Masatoshi, Molecular population genetics and evolution 525–7
Roberts, D. F., Human variation and natural selection 521–2
Salzano, Francisco M., The role of natural selection in human evolution 231–3

Sanghvi, L. D., V. Balakrishnan, H. M. Bhatia, P. K. Sukumaran and J. V. Undevia, Human population genetics in India 71–3
Schachter, Stanley and Judith Rodin, Obese humans and rats 81–3
Snyder, W. S., Report of the task group on Reference Man 656–8

Costa, Jr., Paul T., Longitudinal physique changes among healthy white veterans at Boston 541–58
Cowan, Betty, Prevalence of hypertension in females of Punjab state, India: relationships with age, residence, heart rate, occupation, and obesity 641–50

Demographic aspects of fecundity 11–18
Dental morphology and population diversity 61–70
Dental variation of canine 453–69
Dermatoglyphics of Baganda 279–86
Dermatoglyphics of Quechua 363–74
Desai, P., Heights and weights of Jamaican children with homozygous sickle cell disease 429–36
Dill, D. B., Comparative performance of men and women in grade walking 381–8
Drinkwater, Barbara L., Validity of estimating body fat of females: effect of age and fitness 559–72

Duncan, M. T., Physical work capacity and pulmonary function of Malaysian adolescent females 31–40

Ellis, Elizabeth, Longitudinal physique changes among healthy white verterans at Boston 541–58
Errata 243, 540

Fat estimation, effect of age and fitness on, 559–72
Fat redistribution and body dimensions 495–514
Favret, Renee, Protein deprivation in primates: XIII growth of infants born of deprived mothers 321–33
Fecundity, genetics of, 11–18
Flint, M. Marilyn, Validity of estimating body fat of females: effect of age and fitness 559–72
Friedlaender, Jonathan S., Longitudinal physique changes among healthy white veterans at Boston 541–58
Frisancho, A. Roberto, Digital and palmar dermatoglyphic patterns in two Peruvian Quechua populations 363–74; Greater contribution to secular trend among offspring of short parents 51–60; Taste sensitivity to phenylthiourea (PTC), tongue rolling, and hand clasping among Peruvian and other native American populations 155–63

Gehlsen, Gale M., Comparative performance of men and women in grade walking 381–8
Genetics of fecundity 11–18
Genetics of the Blackfeet Reservation 19–29
Genetic relationships and isonymy 489–93
Georgiadis, E., Serum cholesterol, triglycerides and phospholipids, and ABO and Rhesus (Rh_oD) antigen among young Greeks 605–10
Growth and sicklemia 429–36
Growth, effects of altitude on, 109–24
Growth, effect of radiation on, 1–10
Growth standards from mixed-longitudinal data 593–603

Haas, Jere D., The effects of high altitude on adolescent growth in southern Peruvian Amerindians 109–24; The effects of high altitude on body size and composition of the newborn infant in southern Peru 611–28
Hand clasping in native American populations 155–63
Hargreaves, H. J., Serum protein and isoenzyme polymorphisms from Nottingham, England 629–40
Heritability of anthropological characters 573–80
Hierholzer, W. J., Nutritional status of Brazilian Kayapo Indians 139–53
